

log4cplus::thread::
SharedMutexImplBase

```
graph BT; A["log4cplus::thread::impl::SharedMutex"] --> B["log4cplus::thread::SharedMutexImplBase"]
```

The diagram illustrates an inheritance relationship between two C++ classes. At the bottom is a white box representing the base class, `log4cplus::thread::impl::SharedMutex`. A blue arrow points upwards from this box to a gray box at the top, which represents the derived class, `log4cplus::thread::SharedMutexImplBase`. The gray box has a black border and a light gray fill, while the white box has a black border and a white fill.
